History of the Common Council of the City of Indianapolis

Indianapolis was established as a town in 1821. It was at this time that a commission, appointed by the legislature, selected this location as a site for a seat of government of the State of Indiana.

The town of Indianapolis conducted its affairs pursuant to the general laws of the state until 1832. In this year the town was incorporated and was governed by a board of five trustees.

In 1838, pursuant to a special act of the legislature, Indianapolis was re-incorporated and placed in the hands of its first town council composed of a president and six members.

The common council continued in a large measure to control the affairs of Indianapolis as a town and as a city under various so-called charters or grants of the legislature until 1891.

Under a special act of the legislature of 1891 for the city of Indianapolis, a somewhat different form of government was established. While the council continued to exercise broad control over the city's affairs, various executive departments of the city were provided, such as Public Works, Public Safety, Public Parks and Public Health, conducted by boards appointed by the Mayor. These boards were granted specific powers and duties concerning the city's business previously exercised by the council through committees subject, however, in some cases to approval of the council in all matters of expenditure of money and appropriation of funds by the council.

For some time prior to 1891 the City of Indianapolis was divided into 25 wards represented by 25 ward councilmen. Their term of office was two years and they were eligible for re-election. At this time there was also a separate body operating in conjunction with the council called the Board of Aldermen, composed of ten Aldermen, representing five Aldermen districts, two being elected from each district.

Under the 1891 act the Board of Aldermen was abolished and a common council of 21 members was established. Fifteen members were elected to represent 15 wards and six members were elected to represent the city at large.

This form of council continued to exist in Indianapolis under the general cities and towns act of 1905. The act of 1905, while often referred to as the Indianapolis Charter, is very largely a re-enactment

of the 1891 Indianapolis Charter, modified to make the Indianapolis system applicable to all classes of cities of the state. The 1905 law increased the term of Mayor and councilmen to four years and prohibited re-election.

In 1909 a novel councilmanic law for Indianapolis alone was passed by the legislature. This law limits the number of councilmen to nine. The law provides for the nomination by each party of six candidates, one from each of six councilmanic districts. In the election all of the voters of the city may vote for any nine candidates and the nine receiving the highest number of votes are elected. This law insures a minority representation in the Council of at least three members. In 1949 the legislature amended the statutes to permit councilmen to succeed themselves.

History of the City-County Council of the City of Indianapolis

In 1969 the legislature enacted a law, popularly known as the "Unigov Act," which consolidated the City and County into one governmental unit. The act further provided for the creation of an interim City-County Council which served as the legislative body for the City and County until the new Council was selected in November, 1971, and took office in January of 1972.

The act provided for the division of the County into twenty-five single member councilmanic districts, each district electing one resident from that district. In addition, there were four at-large councilmen, elected by voters of the entire county.

Unified Government of Indianapolis-Marion County is an attempt to make metropolitan government simpler, more functional and more responsive to citizens' needs. Under the new structure, six major departments replace the more than sixty which were in existence perviously.

REPORT ON CABLE T.V. PROCEDURES

Mr. President:

The Council Committee on Committees, having considered the matter of procedure for consideration of Cable T.V., as referred by the Council, respectfully reports the following protocal:

1. As soon as a draft of the specifications for a Cable T.V. franchise in Marion County has been drafted by the office of the Corporation Counsel in cooperation with the consultant, Malarky, Taylor and Associates, those specifications will be made available to the public generally, at a nominal fee.

2. The Council will conduct a series of hearings upon those specifications. These hearings will be held in three stages:

a. First Stage. The first stage of hearings will be held at least two weeks after the draft specifications are made available to the public. This stage of the hearings will be restricted to a discussion of the draft specifications, consisting first of an explanation by those responsible for drafting the specifications and testimony by all interested parties and the public objecting to or supporting the specifications as drafted.

b. Second Stage. The second stage of the hearings will be held at least two weeks following the conclusion of the first stage of the hearings. All persons interested in a revision of the specifications will be asked to submit proposed revisions in writing and may testify. Compromises between varying viewpoints may be expressed at this stage of the hearings.

c. Third Stage. The Council, meeting as a Committee of the Whole, will consider and approve a revised and final set of specifications at this stage.

3. The Specifications, approved by the Council, will then be submitted to the Board of Public Works for approval and advertisement for bids.

4. The Board of Public Works will receive sealed bids for the Cable T.V. franchises. Potential bidders shall have at least 60 days in which to submit such bids.

ANNOUNCEMENTS

President Hasbrook explained that the reason for various typographical errors in proposals is due to Proposals being submitted to the Council Attorney at such a late date that rush jobs must be performed in order to introduce them at the specified time to the Council. He pointed out that there would be a lot fewer errors if proposals were submitted earlier.

Councilman Byrum announced that there would be a Transportation Committee/Board meeting on Wednesday, August 7, 1974, at 4:00 P.M. in Room 260, City-County Building.

ADJOURNMENT

Upon motion made by Councilman Boyd, seconded by Councilman Gorham, the meeting adjourned at 9:20 P.M.

A GENERAL RESOLUTION approving the finding of the Indianapolis Development Commission with respect to issuance of revenue bonds in the amount of $1,000,000 for financing of certain economic development facilities to be undertaken by Rock Island Refining Corporation and authorizing and committing the City to proceed with said project subject to final action by this Council with respect to the terms and conditions of said financing.

WHEREAS, the City of Indianapolis, Indiana (the "City"), is authorized by IC 1971, 18-6-4.5 (the "Act"), to issue revenue bonds for the financing of economic development facilities and to loan the proceeds of such bonds; and

WHEREAS, Rock Island Refining Corporation (the "Company") has advised the City that it has under consideration a program to expand the production capacity of its refinery in Indianapolis, Indiana, by revamping its No. 2 crude unit and installing and modifying the equipment and machinery (the "Facilities"), described in Exhibit A attached hereto and made a part hereof; and

Section 3. In order to induce the Company to proceed with the purchase, installation and construction of the Facilities, the City-County Council hereby determines that:

(i) it will authorize and issue one or more series of revenue bonds of the City pursuant to the Act, in aggregate principal amount of $1,000,000, and in such additional amounts as later approved by it (but not pursuant to the current provision of Internal Revenue Code § 103(c)(6)(D)), and as may be permitted by change in the Internal Revenue Code provisions for tax exemption of certain small issues of industrial development bonds, to finance, in part, the costs of the purchase, installation and construction of the Facilities, including reimbursement or repayment to the Company of any monies expended by the Company for planning, engineering, interest during construction, underwriting, attorney and bond counsel fees, acquisition, installation and construction of such Facilities, and will enter into contractual arrangements to make a loan to the Company of the net proceeds derived from the issuance and sale of such revenue bonds for the financing, in part, of the acquisition, installation and construction of the Facilities whereby the payments to be made by the Company shall be sufficient to pay said bonds and the interest thereon, as and when the same shall become due and payable;

(ii) it will adopt such ordinances and resolutions and authorize the execution and delivery of such instruments and the taking of such actions as may be necessary or advisable for the authorization, issuance and sale of said bonds, and

CITY-COUNTY GENERAL RESOLUTION NO. 17, 1974

A GENERAL RESOLUTION approving the findings of the Indianapolis Development Commission with respect to issuance of revenue bonds in the amount of $2,500,000 for financing certain pollution control facilities

to be undertaken by Rock Island Refining Corporation and authorizing and committing the City to proceed with said project subject to final action by this Council with respect to the terms and conditions of said financing.

WHEREAS, the City of Indianapolis, Indiana (the "City"), is authorized by I.C. 1971, 18-6-4.5 (the "Act"), to issue revenue bonds for the financing of pollution control facilities and to loan the proceeds of such bonds; and

WHEREAS, Rock Island Refining Corporation (the "Company") has advised the City that it has under consideration, pursuant to findings and orders of the Indianapolis Air Pollution Control Board, a program for the purchase and installation at its refinery in Indianapolis, Indiana, of certain additional pollution control facilities (the "Facilities"), including a carbon monoxide boiler and a tank truck vapor control system, described in Exhibit A attached hereto and made a part hereof; and

WHEREAS, the Company has further advised the City that a determination by the City to issue its revenue bonds under the Act to finance the acquisition, installation and construction of the fAcilities, under contractual arrangements whereby the City would make a loan to the Company of the net proceeds derived from the issuance and sale of such bonds for the financing of the Facilities, will constitute a substantial inducement to the Company to proceed with the acquisition, installation and construction of the Facilities, and the Company has agreed to pay the costs of the City, whether or not such bonds are issued and the loan made; and

WHEREAS, the Indianapolis Development Commission has given its approval to financing the Facilities on the basis that the installation of the Facilities will reduce pollution and will be of public benefit to the health, prosperity, economic stability and general welfare of the City and its inhabitants; and

BE IT RESOLVED BY THE CITY-COUNTY COUNCIL OF THE CITY OF INDIANAPOLIS AND OF MARION COUNTY, INDIANA:

Section 1. The City-County Council finds and determines that the

control of pollution at the Indianapolis refinery of the Company is desirable to preserve the health, safety and general welfare of the inhabitants of the City, and that it is in the public interest that the City take such action as it lawfully may to encourage control of pollution at the refinery of the Company.

Section 2. The City-County Council further finds and determines that the issuance and sale of revenue bonds of the City under the Act, and the loaning of the net proceeds derived therefrom to finance the acquisition and construction of the Facilities, will enable the Company to install the Facilities, as directed by the findings and orders of the Indianapolis Air Pollution control Board, and thereby serve the public purposes referred to above, in accordance with the Act.

Section 3. In order to induce the Company to proceed with the purchase and installation of the Facilities the City-County Council hereby determines that:

(i) it will authorize and issue one or more series of revenue bonds of the City pursuant to the Act, in aggregate principal amount of approximately $2,500,000 to finance the cost of the purchase, installation and construction of the Facilities, including reimbursement or repayment to the Company of any monies expended by the Company for planning, engineering, interest during construction, underwriting expenses, attorney and bond counsel fees, acquisition, installation and construction of such Facilities, and will enter into contractual arrangements to make a loan to the Company of the net proceeds derived from the issuance and sale of such revenue bonds for the financing of the acquisition, installation and construction of the Facilities whereby the payments to be made by the Company shall be sufficient to pay said bonds and the interest thereon, as and when the same shall become due and payable;

(ii) it will adopt such ordinances and resolutions and authorize the execution and delivery of such instruments and the taking of such actions as may be necessary or advisable for the authorization, issuance and sale of said bonds, and

(iii) it will take or cause to be taken such other actions as may be required to implement the aforesaid, or as it may deem appropriate in pursuance thereof; provided that all of the foregoing shall be as authorized by law and as mutually acceptable to the City and the Company.

Section 4. It is hereby recognized that the issuance and sale of revenue bonds by the City under the Act for the purposes set forth herein shall be subject to the City obtaining all approvals as may be required under the Act, including a favorable report of the Indianapolis Development Commission.

Section 5. To the extent permitted by the Act, the Company may make such changes in the Facilities as it may deem necessary, desirable or as may be required in the light of the then existing regulations or technology, or both, or the Indianapolis Air Pollution Control Board, provided that after such changes the Facilities will constitute air or water pollution control or solid waste disposal facilities within the meaning of § 103 of the Internal Revenue Code of 1954, as amended, and the regulations issued thereunder.

Section 6. The City-County Council recognizes that the aggregate principal amount of revenue bonds herein authorized may not be sufficient to complete the Facilities and agrees that the documents relating to the bond issue may permit the issuance of additional bonds from time to time to complete the Facilities.

Section 7. The Resolution is hereby declared to constitute "other similar official action" of the City within the meaning of § 1.103-8(a)(5) of the Income Tax Regulations issues by the United States Treasury Department.

Section 8. This Resolution shall be in full force and effect immediately upon compliance with the procedures required by I.C. 1971, 18-4-5-2.
